## Things I'm good at

- Managing time
- Quickly, efficiently and effectively completing tasks
- Multitasking under pressure
- Brainstorming in groups
- Sketching thumbnails with minimal direction
- Taking succinct notes in a team environment
- Actively listening in meetings and small groups
- Professional phone conversations
- Writing grammatically correct e-mails

## It's me you're looking for.

Hey there! My name is Leanne Klimek, and my skills harness a fusion of graphic design and web development. I love digging through code, playing with page layout, noodling with vector graphics and coaxing information out of databases. I draw in margins and think in conditional statements. I'm excited to work with you.
